

DEVIKA JANGID

Java Full Stack Developer | devika1909jangid19@gmail.com | +91-9166532806 | Jaipur, India
Portfolio: devikajangid-portfolio.vercel.app | LinkedIn: linkedin.com/in/devika-jangid | GitHub: github.com/jangiddevika19

PROFESSIONAL SUMMARY

Java Full Stack Developer with a strong foundation in Java, Spring Boot, React.js, MySQL, and REST API development. Skilled in designing and building scalable, responsive full stack web applications across the complete development lifecycle, from database design to backend logic and dynamic front-end interfaces. Adept at writing clean, efficient code and quickly adapting to new technologies, with hands-on project and internship experience in real-world application development.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Backend: Core Java, Advanced Java, JSP, Servlet, JDBC, Spring Boot, Hibernate

Frontend: HTML5, CSS3, JavaScript, React.js, Angular, Tailwind CSS

Database: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Postman

PROJECTS

Hospital Management System | *Java, Spring Boot, React.js, MySQL, REST API, Hibernate*

- Developed a full-stack Hospital Management System to manage hospital operations including patient records, doctor details, appointments, and healthcare data.
- Built RESTful APIs using Spring Boot and integrated Hibernate ORM with MySQL for reliable, scalable backend data management.
- Implemented core modules for patient registration, doctor information management, and appointment scheduling with complete CRUD functionality.
- Developed a dynamic, responsive front end using React.js, integrated with backend APIs for seamless end-to-end data flow.

Online Shopping Application | *Java, JSP, Servlet, JDBC, MySQL*

- Developed a full-featured e-commerce web application implementing user management, product handling, and database connectivity using Java backend technologies.
- Engineered secure user authentication with a product catalog module supporting complete CRUD operations, using JDBC for efficient MySQL data connectivity.

Airline Reservation System | *Java, MySQL*

- Created a database-driven airline reservation system to manage flights, passengers, and booking records.
- Designed a normalized relational database schema in MySQL to ensure data integrity and consistency across reservations.

Frontend Web Applications | *HTML, CSS, JavaScript, React.js*

- Built and deployed responsive, mobile-friendly websites — Coffee Shop, Restaurant, Bakery, Travel, and Diamond Shopping — using component-based UI architecture in React.js.

INTERNSHIP EXPERIENCE

Application Developer Intern — NexaNova Pro Tech | *6 Months*

- Contributed to the design and development of Java-based web applications, building and testing new features under guidance from senior developers.
- Debugged and resolved application issues, and wrote clean, well-structured, maintainable code following industry coding standards.
- Worked with core development technologies and tools, gaining practical exposure to real-world software development workflows.

EDUCATION

Bachelor of Computer Applications (BCA) | *MDSU Ajmer* | *2025*

Diploma in Java Full Stack Development | *FirstBit Solutions, Pune* | *Jun 2025 – Jan 2026*

Completed an industry-oriented Java Full Stack Development program with strong hands-on practice in backend, frontend, and database technologies, including real-world case studies and project-based learning. Key areas covered: Core Java 17, OOP Concepts and Data Structures, C Programming Fundamentals, HTML5/CSS3/JavaScript, Java EE (Servlets), JSP and JDBC, Spring Core 6 and Spring Boot 3, MySQL 8, Hibernate 6 (ORM), Angular 14, and Git/GitHub.

ACHIEVEMENTS

- Created and deployed multiple full-stack and frontend web development projects.
- Built and deployed a personal portfolio website showcasing technical projects.
- Active technical content creator on LinkedIn, sharing web development insights and projects.
